ORDER NOW! Popular Summer Annuals

Order your summer bedding and basket plants now. We offer three size options:

Plugs

Plug plants represent superb value for money. You'll get them earlier in the year, they just need growing on in flower pots in a cool, frost-free location, before acclimatising and planting out after all risk of frost.

Garden Ready

Garden Ready plants are an even easier way to enjoy summer flowers. We do the 'growing-on' part for you, and then these super-size plants are despatched at the right time for putting straight into the garden, in their flowering position. With an established root system you'll get a longer, stronger display of summer flowers.

Postiplugins

Postiplug plants are versatile, superb value plants usually between 5cm and 9cm tall and can be planted straight into baskets and other containers. If weather conditions are not favourable, they can easily be grown on in flower pots in a cool, frost-free location, before acclimatising and planting out when risk of frost has passed.

Summer Baskets

Garden Ready

We despatch these tough, super-size plants at the perfect time for planting out, usually before blooms form, so all their energy has gone into producing a strong root system. This helps them establish quicker for better root growth and then a longer, stronger display of flowers.

Delivery: May-June

Plug Plants

With our exclusive cartridge plug system[®]PAP, each young plant has an extra-strong root system for the best of starts. The new, open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

Delivery: March - Apr
